

Laurie Williams

Research & Insights Manager
mslwilliams00@gmail.com | Columbia, SC

SUMMARY

Research & Insights Manager with 4+ years of experience leading mixed-methods research, global survey programs, and data-driven insights for enterprise and technology organizations. Expert in designing high-impact research studies, managing 100,000+ participant datasets, and transforming complex data into strategic insights that drive product, marketing, and organizational decision-making. Highly skilled in survey analytics, statistical methods, dashboarding, and stakeholder communication. Currently completing an MS in Human-Computer Interaction to deepen expertise in user behavior, usability evaluation, and experience research.

PROFESSIONAL EXPERIENCE

Survey Manager

Uptime Institute | Remote (10/2024 – Present)

- Increased global survey response rates by 21 percent in six months through optimized outreach strategies and automated workflows.
- Designed and executed 13+ global annual surveys using advanced logic, embedded data, and custom scripting to improve accuracy and user experience.
- Managed global survey operations across 100,000 plus participants, delivering insights to executives and industry stakeholders.
- Conducted research on AI adoption, automation, and digital transformation within data centers to support industry trend forecasting.
- Developed dashboards and data visualizations in Tableau and Excel to support organizational decision making.
- Designed and executed email campaigns for global survey distribution, testing subject lines and messaging to optimize open rates, click-through rates, and overall response rates.
- Authored executive reports, 3-pagers, crosstabs, newsletters, insight briefs, and data summaries for publications and conference presentations.
- Improved survey performance and data quality through custom JavaScript and CSS enhancements.
- Managed the Survey Membership program, overseeing recruitment, retention, communication workflows, and analytics.

Survey Associate

Uptime Institute | Remote (03/2023 – 10/2024)

- Coordinated the entire survey lifecycle including questionnaire development, programming, testing, deployment, and field monitoring.
- Cleaned and processed complex datasets, ensuring accuracy across open ended and closed ended responses.
- Produced charts, insights, and written analysis for industry reports and conference materials.
- Executed membership management workflows including recruitment, retention tracking, segmentation, and audience analysis.

AML Analyst

AML Rightsource | Remote (07/2022 – 02/2023)

- Analyzed financial transaction data to identify anomalies, fraud patterns, and risk indicators.
- Conducted transaction monitoring, KYC reviews, EDD reviews, alert resolution, and SAR preparation.
- Synthesized findings into clear documentation for compliance and quality control teams.

Lab Operator

Winthrop University | Rock Hill, SC (01/2020 – 05/2022)

- Supported academic research labs through technical troubleshooting and documentation improvements
